WELCOME TO CAMP STEMulation!
Camp STEMulation was a fantastic time for SYSTEM students and staff. Theme for the camp was: Oceanography, the Deep Blue Sea, Marine Science, and Water Conservation. Classes were held outside and social distancing was maintained.
Staff set up tents for some of the class areas. Students and staff enjoyed all classes on the outside in order to accommodate COVID-19 guidelines.
Students and staff assembled together before going to designated class areas.
Staff met to collaborate on schedule for the day.
ARTS, CRAFTS, AND GAMES
SPECIAL PROJECTS
MUSIC FUN!

Music teacher, Kent Murphy, and students enjoyed music fun in the sun.
